

WEBINAR

FARMING CHANGING SEAS

EARLY LESSONS FROM ACTFAST AND OCCAM

16.12.2026

10:00 TO 11:30

REGISTER NOW

OBJECTIVE

Join us to explore preliminary results from ActFast and OCCAM, two EU Horizon Europe projects driving climate adaptation and mitigation in aquaculture. Tailored for professionals, policymakers, researchers, and media, this webinar covers key policy drivers, practical environmental and economic assessments from real-world case studies, and two targeted measures to strengthen bivalve resilience in Mediterranean Deltas.

AGENDA

10:00 Welcome and opening.
Bernardo Basurco (ActFast & CIHEAM Zaragoza) and Freya Robinson (OCCAM & Submariner Network)

Setting the scene

10:10 Policy barriers and opportunities for climate change adaptation and mitigation in aquaculture
Eirik Mikkelsen, Nofima (Norway)

10:25 Enhancing temperature tolerance and growth performance in Mediterranean aquaculture. Does mussel origin matter?
Dolors Furones, Yanis Cruz, Margarita Fernández Tejedor and Ignasi Gairin, IRTA La Rápita (Spain)

10:40 Protecting pre-fattening Manila clam from invasive blue crab predation: testing bio-based alternatives to conventional covering nets
Antonina De Marco, University Bologna (Italy)

Combining environmental and economic assessment

10:55 Integrating life-cycle assessment and socio-economic modelling: towards a more complete evaluation of aquaculture solutions.
Julianna Arias Hansen, Blue Resource / Sjókovin (Faroe Islands) and Michael Martin, Swedish Environmental Research Institute (Sweden)

11:10 Questions & Answers

Co-funded by the European Union

These projects have received funding from the European Union's Europe Research and Innovation Actions programme under the following grant agreements: ActFast GA N° 101181159 and OCCAM GA N° 101182044.
